Experience

Frontend Developer Trainee

May 2025 – Present

Tops Technologies

Ahmedabad

- Gained hands-on experience in HTML5, CSS3, JavaScript (ES6+), and React.js through real-world projects.
- Applied component-based architecture and modern UI/UX principles to build scalable interfaces.
- Worked with RESTful APIs, authentication workflows, and styling frameworks.
- Collaborated using Git and GitHub for version control and team-based development.

Projects

Zapto – E-commerce Platform | [Live Preview](#)

- Developed a React.js-based e-commerce platform featuring product listings, shopping cart, and admin dashboard.
- Implemented CRUD functionality, state management using Context API, and secure authentication with Clerk.
- Applied role-based access for admin and users to manage products and orders securely.
- Built a mock backend using JSON Server to handle RESTful APIs and deployed the application on Netlify.

Medi Nest – Healthcare Website | [Live Preview](#)

- Developed a responsive healthcare website for hospitals and clinics.
- Designed reusable React components with Bootstrap for consistent UI.
- Optimized layout for mobile and tablet devices.

Nivia Sport – Sports Website Clone | [Live Preview](#)

- Created a multi-page sports website using semantic HTML and modern CSS.
- Implemented responsive layouts using Flexbox and media queries.
- Focused on UI consistency and clean code structure.

Education

Bachelor of Computer Applications (BCA)

2022 – 2025

Sardar Patel University

CGPA: 7.4

Certifications

- Frontend Developer Certification – Tops Technologies
- NSDC Certification in Web Development
